Electronic Recyclers International[®] is the largest electronics recycler in North America. ERI specializes in the environmentally safe and socially responsible dismantling of electronic waste.

ERI has the Highest Capacity and Most Technologically Advanced E-Waste Shredding System in the world, thus providing our customers with a maximum economic benefit and maximum commodity return. All material sent to ERI is 100% recycled into 3 main commodities: metals, plastic and glass. No electronics are placed in landfills and nothing is illegally exported to other nations.
